BULLETIN - Congressmon Wilmer Colmer telegraphed the Sea Coast Echo at precatime Wednesday: Public Health Services advices that it in awaiting material administrator, Hancock County Hospital, agreed yesterday to send which is expected to clear up matter and result in certification of hospital." (650 P July 27, 1966.)

A birth announcement in the Sea Coast Echo earlier this month said to be in the reason the U.S. Department of Health, Education and Welfare has refuced to approve Hancock General Hospital for participation in the medicare program. Administrator H.J. Black-

ledge said an HEW man (Dorty or Daughtery or comething like that, he said) telephoned him from Baltimore, Md., last Friday to report the rejection and the basio for it.

The HEW man, according to the administrator, cited the item on Page 5, Section A, of the July 14 issue, which reported a birth to "Mr. and Mrs. Jefferson Collins, Negro. . ." at Hancock General Hospital.

Blackledge said state law requires the designation of race on all birth certificates. He said he tried to explain to the HEW man that the hospital had no control over what the newspaper reported on births, adding perhaps the reporter "merely looked." Since Friday, the adminis-

trator says he has been in constant communication with HEW over its lotest refusal to approve Hancock General. Among others he hastalked with Sherry Barnstein, an assistant to HEW Secretary Labruzzi; Senator James O. Eastland and his administrative assistant. But Blackledge said he has been unable to get any indication of future rulings by HEW.
